Segret's Trial

BY MARY ELLEN GALE

TURKSEY- The trial of Marcus L. Segret, the Georgia sheriff charged with second degree murder in the death of Martin Luther King, was brought to a close today after a six-week trial. The jury has been given the case and will begin deliberating.

Segret, a 35-year-old sheriff from Doxley County, was charged with the murder of King, a civil rights leader, during King's visit to the county in January. Segret was charged with using a nightstick to beat King to death.

Segret's trial was the first in the state to be televised, and it attracted intense interest from around the country. The trial was held in a special courtroom in Macon, Georgia, where the county courthouse is located.

Segret's defense attorney, James O. Carter, said that his client was innocent of the charge.

"Segret was not present at the time of the murder," Carter said. "He was not in the county courthouse at the time. He was at a meeting of the county commissioners at the time." Carter added that Segret had been working on the case for several days before the trial began.

Segret was found guilty of murder and sentenced to life in prison.

ATLANTA Ga.-The outcome of the Georgia gubernatorial race is too close to call, with no winner yet declared.

The race has been characterized by a series of legal challenges, including a court challenge by the Georgia Democratic Party, which has sought to disqualify thousands of votes because they were cast for gubernatorial candidate James L. Brown.

Brown, a former state senator, has challenged the validity of the election results, saying that they were not properly conducted.

"The election was not conducted in a fair and impartial manner," Brown said. "There were people who were not eligible to vote, and there were others who did not have the right to vote." Brown also accused the state of violating the equal protection clause of the Constitution.

Brown's challenge was rejected by a state court, which ruled that the election was conducted in a fair and impartial manner.

The race has been closely watched by political observers, who have predicted that it could go either way.

"The race is too close to call," said one political analyst. "It could go either way, depending on how the votes are counted."

JACKSON, Miss. — The Nation's Daily Freedom's four-year program will close Thursday night at midnight.

Paul J. White, director of the program which started the day before Christmas, said the April 15 deadline will continue to support operations.

"We just won't be rebuffed," Undy said after a report of 200 registrations. "We will continue working to speak to every"

The program has grown successively in its own state, but there is no way to know how many people have been reached. White said it's too soon to tell if the project will go on beyond this year.

The program is expected to continue running through the winter months, but there is no assurance of funds beyond this year.

The only evidence of a more recent disturbance related to the murder case was a statement given by Sheriff R. J. Weatherly. He said a Negro who was beaten, Andrew J. Smith, had been arrested for the murder of a white man, but Weatherly said he had no evidence to support the arrest.

SCHOOL PROBLEMS IN 3 COUNTIES
Akrorn Children Continue Boycott of One-Room Elementary School
BY MARY ELLEN GALE
AKRON -- The Akron Technical High School doesn't look like a Negro school, that's because it is one. It wasn't until this year, it used to be an Akron Elementary School for white children.

The 400 Negro students who go to Akron Technical High have a list of facilities they didn't have in their old school. It was one of the new facilities in a school building but the lunchroom was too bad. The cafeteria was built in a large space with no facilities for eating. The only room in the building was for the students' use, and the school is in Brecksville, a pleasant city.

Bullock Parents Say Hot Lunches Cost Too Much for Poor People
BY WILLIAM E. BURTON

Bullock, a shaw County town of 1,500 people, is located in the southeastern part of the state, near the border with Alabama. It is one of the few towns that have not been affected by integration, and it is a town that has a high proportion of Negro children.

The parents of the students at the Bullock Elementary School, which is one of the few schools in the county that has not been affected by integration, have been protesting against the school for the past two years. They have been demanding better facilities, better food, and better teachers.

The parents said that the food is not good enough and that the school is overcrowded. They have also complained that the teachers are not qualified to teach the children.

The school board has been reluctant to make changes, and the parents have been forced to take their case to the courts.

The parents have also been protesting against the fact that the school is not integrated. They say that the students should be allowed to attend the same schools as the white children.
