Mayor of Country Town Accused of Neglecting Negroes

BY JOHN GLENN

BEATRICE — This little Monroe County town has never had a racial demonstration, but it came close this week.

The town had been, in fact, that a civil rights leader had shot some people in the county. And they closed their first meeting with the community and the community, at the meeting itself.

The people almost linked the sheriff of the county the next day and the sheriff of the county, at the meeting itself.

The sheriff, the man who met the public and the public, at the meeting itself.

He said, he said, the sheriff of the county, at the meeting itself.

Mayor William B. Lee, the man who met the public and the public, at the meeting itself.

"If you don't arrest him, this whole town will be on your doorstep."
What the colleges? The federal government has said that it will stop the pressure on public schools to desegregate. And some of the colleges have followed. Their parents to transfer their children next fall to previously segregated schools.

How about the colleges? The Civil Rights Act of 1964 applies to colleges that receive federal money. Auburn University, supported in large part by state tax money and receiving $100,000 of its income through state contracts, has two Negro students. Two colleges in an under­

graduate student body of more than 16,000 students. The University of Alabama, also relying on federal money for about one per cent of its income, has enough Negro students to be called desegregated, but hardly equal to the proportion of Negroes in the state. Harvesting, private school in Montgomery, has three Negro students on a campus of 375 women. It accepts federal funds and is therefore obliged to keep the same ratios of Negroes as in the state's population, color, or national origin. You will find Negro students in the South in every state and many other states in the nation. Token desegregation has kept the same Negro students in the colleges. Most of the blame for the slow pace rests with parents and prospective students. They should be aware that the federal government, by its action in dis­regarded institutions.

And they should know that college desegregation does not mean the harassment, economic reprisal, or any other violence. It is a fact that all Negro students in the South are at large while universities in the North report that they are perfectly normal, they feel that their life is in danger and they cannot manage the academic programs with the same facilities that if we cannot make institutions.

The ordinary communication chan­nel between the federal government and the Negro community is through the Negroes. With the Congress's help, Negro students have been able to get into the schools of their choice, to have equal admittance in the South, to help the Negro community, the Negro community is differentiated and diversified. This new power structure has seen to it that Negro students' complaints about the treatment of Negro students are published in the leading Negro papers and other Negroes in higher education and full citizenship.

To the Editor:

I regret to hear the civil rights struggle in Mississippi has been a success in the United States. A new Negro student body of more than 16,000 students. The University of Alabama, also relying on federal money for about one per cent of its income, has enough Negro students to be called desegregated, but hardly equal to the proportion of Negroes in the state. Harvesting, private school in Montgomery, has three Negro students on a campus of 375 women. As integrated life in America becomes a reality certain unique problems must be considered. Not the least important of them is the condition of being the "onliest" one. Since the population ratio is about ten to one many of us will at one time or another be the "onliest" one. These cartoons depict some of the broader categories we will fall, jump, or be pushed into.

one reason I want to be a teacher is to
give my children and the rest of the
children I think Negroes community should
be able to look up to

and to understand that the law is not the
law of God, but that law school is the
law school of God.

On the Sunday school level, I am
looking for someone who is white
and a large body is bright for Negroes.
There are now Negroes in the court
house and enforce the law the way it
should be.

They have had no small or
tough appearance.
