Squadron of UH-1 helicopters prepares to take off on "combat" assignment. Another squadron is already airborne.

Student pilots eat lunch at "TAC-I".

A squad of UH-1 helicopters departs Fort Rucker for Viet Nam. As many as 95 per cent of the graduates of the Army Aviation School located at Fort Rucker are sent to Viet Nam. Climbing the many weeks of training are the eight days the students spend at "TAC-I," tactical field area. There they are under the watchful eye of instructors like Captain Earl Thomas and Chief Warrant Officer Robert Lester, veterans of the helicopter war in Viet Nam. The trainees live and fly under conditions just like those in Viet Nam.

From the airfield at "TAC-I," they fly practice combat missions together into fields, take supplies, drop supplies, use night landing, escort other aircraft, and attack with a massive air assault.

In the near future there will be at least 10,000 people off the plantation. When the department of the Mississippi Delta and the Mississippi Delta Poor People's Corps put in a strike and a plan goes through before the Mississippi Delta and the Mississippi Delta Poor People's Corps put in a strike.

The Negro has made the white man rich by his land and it has gone to the point that white people don't want Negroes any more for labor. Negroes eat, walk, and talk about the white man instead of farming. The Negroes eat and talk about the white man instead of farming.

Well, what is the Negro's plan for a change?

The Negro knows that he can make a living without a job on the plantation. The white man thinks that the Negro has no money and he will call you "boy," and tell you that you can't be important. A Snake in the Ditch
And Other Problems

BY JAY R. SUEDE

I'U 1967, the posters were put up, a few
bells rung, and the people everywhere were
told about the Snakes that had slithered into
their neighborhoods, to get jobs, to ad
dress school problems, and generally to get
the ditch to come to the church, the state,
and the national. The posters were put up,
someone went around and tore them down,
but the people who had attended the meet-
ing decided to try to set up a community
school around Mobile County. Mrs. Jackie
took care of the boards, and the young boys
had a big snake on it and said, “We wall
teach people how to handle the posters.”

A few weeks later, Julian Bond and Samson
Crum will speak.
