People in Grenada Seek an ‘Open City’

BY DAVID RICE

GRENADA, Miss.—In the SCLC office here, everyone talks of making Grenada an ‘open city.’ By this they mean total desegregation—from the police department to the college library.

Early last July, the Grenada County Freedom Movement presented a list of 10 demands to county and city officials. Civil rights workers say the demands have not been met, but Grenada County Attorney Aumusson-Crawfordsays, the demand has been met, he said, when the local hospital complied with the desegregation requirements for Medicare. ‘A lot of demands have been met,’ said Brooks, ‘but they have not met all of their strategy—say it wasn’t given, then say it was given.’

In Grenada, a white man can rent a house, drive a car, or go to college with no trouble; but the Negroes cannot. They can’t be seated at a restaurant, or go to the movies, or use a public restroom, or just go for a walk in a public park. ‘We’re not asking for special privileges, we’re asking for equal rights for all people,’ said Brooks.

‘If 40,000 or more people don’t go to school here, I prom¬

ised them that this time we would not give up the fight for desegregation.’

BURN, BABY, BURN

The magic of the Motown Sound, The Chicago Beat, Otis Redding's "raw turkey" way of pronouncing words behind a band which is really cooking.

Whether the musician is a part-time or full-time performer, just the expressions on his face denote his effort to entertain and please his fans.

After years of struggle and much study--learning to thrill people with a throbbing beat, to send chills down somebody's spine by just the small movement of a hand or a sad way of singing the blues--a musician can make his listeners forget their problems for a few minutes.

Many who work at other jobs during the day become musicians at night--either to make extra money, or just for the sheer desire to keep the skills they have learned, to have an outlet from the pressures of everyday life.

DOZIER -- "Printing" blanks the advertisements for the Daniels Printing Shop. "We give good announcements, cards, programs, etc.," in one respect, the ad is misleading. There is "not" in the Daniels Printing Shop. There is only a 15-year-old Rod Daniels. He has been a baseball fan all his life. He hits a lot of the season. Later with every passing year. They have been training since late July. The college between the NFL and AFL champions, for example. And they'll probably make it two out of three.

"The company I bought it from told me not to go in to print any more post-season work," Daniels recalled. "I was over in the Louisiana provincial house, and there's a man there called "Sarge," what are you doing here?"

"I said I just wanted to watch him. But he smiled didn't want me to sit, so I said, "Sarge, I just came to watch you.""

Sarge, a former Danes, quickly informed me that I was welcome, he might need something or other sometime, so I said, "Thank you the next time I come around.

"Sure, come on in, and have a cup of coffee," Daniels added. "I'll tell you all about what's going on here."

"That's all the learning I had about the press, one day I did get a little back to teach me how to print, but already have a big chunk of it.

"It's a lot of fun, you know, it's a lot of work, but it's a very good job."

"But after I told the mail in Andalusia, "I had sort of learned that in a way. Then he leaned back in his chair, I'm not sure if he was ready to go to sleep or if he was going to go to work.

"But it was 10 years before he finally got on the press. He's been working on it for a short time, just a few years. He's been doing it, I think, for about a year or so."

Baby Born in Taxicab

BY ALVIN CASN JR.

MONTGOMERY — A woman had a baby in a taxicab Sunday night.

Dr. Carole Carter, driver of the cab, told a story of how she helped.

"A little after 10 p.m., I smelled the odor of a woman's blood and knew she was in labor," Carter said.

The woman was driven to the nearest hospital, where she gave birth. However, since the baby was born in the cab, Carter was unable to deliver it.

Carter described the baby as healthy and said the woman was doing well.

"I was just happy to be able to help in any way I could," Carter said.

The baby was later taken to a nearby hospital for treatment.

BIRMINGHAM — The Alabama law against consumer boycotts will remain in effect.

The law was made legal by U.S. District Judge T. L. Comer, who rejected the arguments of protesters who claimed the law violated their First Amendment rights.

The court also ruled that the law did not violate the Equal Protection Clause of the Constitution.

The judge noted that the law was enacted to protect businesses from boycotts.

Tuition Grants

The Alabama legislature passed a bill that would provide grants to students attending colleges in Alabama.

The bill was designed to help students attend college and receive financial assistance.

The grants would be available to students attending public and private colleges in Alabama.

The grants would be awarded based on financial need and academic performance.

The amount of the grant would vary depending on the student's financial situation.

The grants would be funded by the state and the federal government.

The grants would be in addition to other forms of financial aid, such as scholarships and loans.
