No Negroes Elected to New ASCS County Committees

THE WALLACE GELLERT FANS ON THE MAIN FLOOR OF THE AUDITORIUM

BY GAIL FALK

Jackson, Miss.—A storm which has been gathering over Mississippi all summer finally broke this week. A spokesman for ASCS announced that it will not give any more money to the present Child Development Group of Mississippi (CDGM). The CDGM is the state-wide Head Start program run by the state of Mississippi. The Mississippi Action for Progress have been providing services to Negroes in Mississippi. The CDGM was formed in secrecy, with the help of the state government, in order to continue and expand its program during the present administration. The CDGM received $2,200,000 in funding from the state government. The Mississippi Action for Progress have been providing services to Negroes in Mississippi. The CDGM was formed in secrecy, with the help of the state government, in order to continue and expand its program during the present administration. The CDGM received $2,200,000 in funding from the state government.

October 8-9, 1966

Editorial Opinion

Where the Action Was

For the last six months, CDGM was where the action was. CDGM (Child Development Group of Mississippi) has been the single most valuable grass roots from the ground up. Its Head Start centers were well-known for providing a measure of success. There is no short cut to education. We have come a long way, for medical attention, I taken him to the circuit court here, and my son was arrested for disorderly conduct. The officer then arrested him for a violation of the Civil Rights Act of 1964, and he was tried for breach of the peace, and was found guilty of the offense.

New Nations Struggle to Solve Tough Problems

AFRICA

TEXT AND PHOTOGRAPHS BY LEWIS CLARK

Africans are so agog that all of the United States, with its 266 million people, blacks included, would only begin to fill it up. You could add the whole European continent, India, Japan, and New Zealand. Even then there would be some room left over.

Africans seems a long way away from Alabama, but in some parts of Africa it is very much like life in Alabama and the rest of the United States. Africa has large cities, suburbs, and small towns, fine roads and traffic jams, movies and shopping centers. It also has small towns, farms, and cotton fields. Among its people are musicians, artists, teachers and preachers, fur traders, and thousands of the world's best. Athens live in the northern part of Africa, in countries like Algeria, Egypt, and Morocco. The northern Africans are close to the United States. The Negroes of "Black Africa" face some of the same problems Negroes do in Alabama. They also have special problems of their own, such as the nations in Black Africa are less than ten years old. Before they became independent, they were looked upon by several other European countries as pawns. South Africa, where the Negroes are a majority, is the worst. The white government of South Africa has turned the country into a prison system. The black wages are so low that they must work hard just to feed their families. The black labor. As a result, they cannot operate without the help of the white government.

Africans use their heads to carry things. They carry small packages on their backs, small baskets, their hands, and on their heads. They carry large packages, even in large cities, many of them on their heads. Some Africans dress just like people in Alabama do, but others wear traditional clothes. Women often wear brightly colored skirts or dresses and men wear long hair.

Education is important, and Africans are trying to build schools and churches and to educate their children. Some Africans dress just like people in Alabama do, but others wear traditional clothes. Women often wear brightly colored skirts or dresses and men wear long hair.

Peace Corps Worker Learn
t By Teaching In East Nigeria

By Perrella Wade

all Shurtleff taught many African children to read and write when he was in the Peace Corps.

He first became interested in learning about Africa while he was a student at Stanford University in California. After graduating, with a degree in physics, he decided to join the Peace Corps instead of getting a job.

"I was very impressed with the attitude of the people," he said. "They were such a refreshing group of people for nearly two years. I learned a lot from them." He said he brought many of his students to his school in East Nigeria.

Macon Loses Two Politicians
One Negro Councilman Resigns in Tuskegee, But Another Is Appointed to Take His Place

By MARILYN GALE

Tuskegee-Albert, Alabama—A new chairman was appointed on Monday, October 10, at the First Ebeneser Baptist Church, where the weekly meeting will be held and held for the past two years left in Buford's term. The meeting was attended by some 750 people, including Dr. T.S. Williams, dean of Tuskegee Institute's school of social work, and Stanley H. Montgomery, pastor of the First Baptist Church, and held for the last two years.

The morning after Buford's resignation, the council of the city of Tuskegee announced that he had been appointed to fill Buford's council seat. But some of those same people were unhappy last week with the way the city council moved to replace Buford. The council appointed Dr. T.S. Williams to the city housing commission, and some indications that the switch didn't make everybody happy. It was known that the council would appoint Dr. Williams to the city housing commission, but it didn't surprise anyone when it was announced that the Negro city councilman, Stanley H. Montgomery, would replace 15 members of the county's anti-poverty program.

The councilman who was named, one of Tuskegee's strongest leaders in the fight for equal rights, is a young Negro running for the mayor's seat. He is a member of the Tuskegee Institute's school of social work, and has been appointed to fill Buford's council seat.
