Negro Leaders Reveal How They Worked Strategy with Democrats

BY ROBERT S. JUSTINN AND STEPHEN E. COTTON

Negro political leaders admitted this week that they had never expected to have gone with the Democratic Party had they been at a later date to establish the "white supremacy" label.

"Members of the Jefferson County Democratic Conference, Inc., a mainly Negro political action group, revealed that they put up the "white supremacy" label to get rid of the rooster or forget about the Negro vote, and that they believed these Negro voters would have done it themselves.

"It was a form of a game," added one of the KSDC delegates from Crenshaw County and one of a dozen Negroes to attend a secret meeting with Democratic losers last month.

But in the Democratic Communications, Inc., a group of the Jefferson Conference Democratic Party, this member said that the Negroes should have done the labels, "for we had Negroes in Republicans," said one delegate.

But the Democratic Communications, Inc., members have not been in accordance - except for their longstanding political stand to establish the "white supremacy" label.

"I don't believe in making your business a prayer meeting," said one of the Negro leaders of the Jefferson Conference Democratic Party.

Marches Cease in Hattiesburg

HATTIESBURG, Miss. — The NAACP has begun to clear the way for the registration of Negroes in this and other Southern states, according to John H. Conyers III, a Negro student leader here.

"We have been forced to cancel," Mr. Conyers said, "and we have found ourselves in a difficult situation." The NAACP's main concern was the registration of Negroes in the state of Mississippi.

The NAACP has been planning a massive voter registration campaign in Mississippi for several years. This campaign is aimed at registering as many Negroes as possible in order to increase their political power.

The NAACP's strategy includes registering Negroes in single precincts and then demanding that the registration be extended to other precincts in the same area. The NAACP has been successful in registering thousands of Negroes in Mississippi in recent months.

The NAACP's message is clear: Negroes have a right to vote. However, the process of registering Negroes is slow and difficult. The NAACP is working hard to overcome these obstacles in order to achieve its goal.

Of Ships and Sharks and Sailing Days

By David R. Underhill

As I was leaving Alabama, my advisor asked me to say something about the career of Conrad Deane, who was born in 1896. It was in 1896 that Deane sailed from New York to Liverpool on a schooner called the D J. Deane, which was a small, two-masted vessel. The ship was carrying a cargo of iron ore from the Lake Superior region to Liverpool, and it was underway when a storm blew up. The captain, however, was no jewel. The crew was left to fend for itself, and Deane was left to take on the role of a sailor. He had been on the ship for only a few days when the storm began, and he was left to battle the waves and the wind. The ship was tossed about like a cork, and Deane was left to battle for his life. He managed to cling on, and he was eventually rescued by a passing steamship.

Deane had always been interested in the sea, and he had dreamed of becoming a sailor since he was a boy. He had been apprenticed to an experienced sailor, and he had learned the trade of a sailor. He had been on many ships, and he had seen many things. He had been on ships that had been tossed about in storms, and he had seen ships that had been wrecked. He had been on ships that had been lost, and he had seen ships that had been saved. He had been on ships that had been lost at sea, and he had seen ships that had been found. He had been on ships that had been abandoned, and he had seen ships that had been salvaged. He had been on ships that had been lost at sea, and he had seen ships that had been found.

Wilcox County Teachers Claim
They Deserve Their Jobs Back

By Alan Baughman

ANNISTON — A jury in Birmingham last week found not guilty three of four men accused of stealing explosives from Fort McClellan.

The trial, despite the defense's attempt to portray the defendants as innocent men who acted in self-defense, was marked by an outburst that resulted in the foreman's arrest.

The state's lead prosecutor said the decision was based on the jury's interpretation of the law, and the defendants were cleared of any criminal charges.

The trial began last month and lasted for nearly six weeks, with testimony from over 20 witnesses.

The two men, who were the only ones found guilty, were sentenced to prison for their involvement in the theft.

The case has raised questions about the role of the federal government in regulating the supply of explosives and the responsibility of local authorities to prevent such incidents from occurring.

MONTGOMERY — The state capital was full of college basketball action in the past week, as several teams competed in the Southeastern Conference tournament.

The most exciting game of the weekend came in the second round, when the Alabama State University. Hornets defeated the Florida A&M University. Rattlers.

The game was held at the Coliseum, and it was a hard-fought contest, with the Hornets pulling ahead late in the game to secure the victory.

The Alabama State University. Hornets are now through to the conference semifinals, where they will face the University of Kentucky.
