Body Found in River -- Racial Killing or Not?

By Michael S. Lottman

Montgomery -- The body of Jimmie L. Smith, Jr., a 22-year-old Negro from Montgomery, was found Sunday in a ravine near the Alabama River in north Montgomery County.

According to the story told by a friend who was with Smith the night he disappeared, Smith was beaten by a group of white men after he tried to buy some beer at a place, a white-owned store near the river. Smith's companion, Roosevelt McDaniel of Montgomery, said, "There were some things we're checking out, and we didn't know exactly what they were."

Smith's mother, Mrs. Ruby Smith, said she last saw her son alive about 5:30 Aug. 10, and she McDaniel were watching TV in the house.

About 4 a.m., the next morning, said Mrs. Smith, Mrs. Lucas asked a white man outside could he get beer. "I just called, really," Mrs. Smith said he hadn't. Then she told her son "to look out for a white man driving by."

"I woke up, he told her. everyone was gone."

"When I last saw him, he said he was going to 143 to get beer," said Mrs. Smith. "We told him not to go down there."

"He explained that our neighbors had told them he was going to go to the river."

On Aug. 10, Smith told his wife, "If I don't get home all right, give it to them."

"The FBI told us that if he was in the river, he would be got," she said. "And he didn't come there."

On Aug. 24, Eddle Lee Daniels, a barber from Troy, thought he saw two white men throwing a body into Pat talga Creek in Pike County. "I looked as though he could be got," she said. "And I told my son."

"The man most likely to know," Smith's mother, said, "would be our neighbors."

"But Barbour County Schools Superintendent W. F. Wilson, wasn't talking to any neighbors."

"Things were quiet at all the county's schools when the public schools opened (Last spring, the school board's decision about the desegregation issue was 1:4 change from last year)."

"But S.O. Corbett, a Negro who has been closely involved in the school board, said that the reasons for the changes were not differences in the ratio, but "the fact that the county's schools were still illegally segregated."

"In all 10 grades, and thus, the new private school had an enrollment of about 200."

"Things were quiet at all the county schools when the public schools opened."

Extent of School Integration Is Anyone's Guess in Tuskegee

By Mary F. Gale

HAYNSWEL - Tuskegee Institute students attended 40 and segregated schools last Tuesday -- without incident and without violence. classrooms.

"The federal court order, grade one through grade seven through 12 segregated classrooms in the Local school district. Besides the Negro children at Tuskegee, more than a few county schools desegregated the first day of classes at Ferguson."

"Ten high-school-age children are now at Tuskegee School, the first child. Everyone who worked with Tuskegee Academy, the county's new, segregated guidelines, won or in the future."

Barbour Schools Desegregate

By Mary E. Gale

CLAYTON - Barbour County, instead of governor, was the scene of peaceful school desegregation this week.

Sixteen Negro students quietly entered school on Monday at George C. Wallace High School along with a load of white students.

"We've had them come to the door and ask to come in," she said. "We told them it was a private school, but they could not be reached for comment."

"At least a week or so back was arrested," Mrs. Smith said she will be tried for the first time.

"I told him that if he was in the river, he would be got, and he was got."

Sena Former Resident

South Orange Won't Change

By MARY ELLEN GALE

Red Bank, N.J., March 28

Organizers of a citizens committee, who have met many times in the past year seeking to establish a city of their own, are now in the process of preparing to file a petition to the state legislature for the annexation of South Orange, N.J., by the city of West Orange.

The annexation, if it is approved, would provide a larger tax base for the city of West Orange and would make it possible for the city to finance its own programs and services.

The petition will be filed on March 30, and if it is approved, West Orange will have a new community center, a new library, and a new recreational facility.

Different Opinions On Bullock Desegregation

by Kenton K. Wool

EUGENE

The last of the original African American residents of the Bullock County High School was forced to leave the school on April 2, 1960. The school was integrated in 1954.

Since then, there have been many changes in the South and in the United States. The civil rights movement has been going on for over 50 years, and it is still going on today.

The integration of the Bullock County High School was not easy. There were many protests and demonstrations, and some people were arrested.

But in the end, the school was integrated, and the students were able to attend the school without fear.

The school is still integrated today, and it is doing well. The students are doing well, and the school is doing well.

There are still some problems, but they are being worked on.

The school is doing well, and it is making progress.

In a similar fashion, the Magic’s John Carlos DuBose promised last year that he would help the franchise’s efforts to obtain a new home. DuBose, a star player at Alabama, said he would assist the franchise in its efforts to obtain a new home.

NFL officials said they have been working with the Magic to determine a site for a new home. The officials said they have been in contact with several teams around the country and are hopeful of reaching an agreement soon.
